

Sourcing technology-based solutions through innovative grants, prizes, partnerships, and research to improve child literacy.

WANTED: INNOVATORS, SOLVERS & PARTNERS

It takes a variety of stakeholders to solve global challenges. All Children Reading: A Grand Challenge for Development Partners (USAID, World Vision and the Australian Government) invite the engagement of companies, non-profits, and individuals to improve child literacy.

INNOVATION IS RECIPROCAL

Literacy is a global challenge. Through All Children Reading, innovators and communities around the world work interdependently to develop and test solutions to advance child literacy.

AREAS OF FOCUS

- 1 Mother tongue instruction and reading materials
- 2 Family and community engagement
- 3 Children with disabilities

CHALLENGE OPPORTUNITIES

Grants
Spur and foster technology-based innovations to address gaps and barriers that perpetuate low literacy levels.

Prizes
Solicit the development of specific products, approaches, or applications that complement grant innovations and fill voids in addressing child literacy.

RESEARCH

Through rigorous, independent research, we seek to identify and analyze the effects of technology on literacy rates to optimize the allocation of resources, inform decisions, and enhance solutions.
